# SALE!

## Welcome to our 2022 Bull Sale.

We are proud to present this year's line-up of two-year-old bulls. The breeding selections we made nearly four years ago are well-represented on the following pages for your evaluation. It is a committed approach by design to continually produce profit-oriented cattle.

In our constantly evolving industry, which always seems to be pushing towards vertical integration, the cow-calf sector has probably the tightest margin of all. Herd bull selection is paramount to continue building and maintaining your cow herd.

Production traits like fertility, structural soundness and longevity, and easy-fleshing ability are a solid foundation in our breeding selections.

As you analyze the offering, please note the consistency of how the bulls are bred. We cut deep into our pen and have four predominant sire groups. The bulls in this group are well matched as many of them are 1/2 brothers by sire. Additionally, their dams are 1/2 and 3/4 sisters - uniformity and predictability you can count on.

Along with Dakota 80E's sons, we offer fresh genetics for 2022 from Radiator 8151, Circuit Breaker 7136, and Density 72B.

We sincerely welcome your appraisal of our bull sale offering February 10th, 2022 in Fort Macleod. We have always valued the friendships and long-term trust many have placed in our breeding program and we do not take that for granted. Your success drives our determination to constantly source the best genetics possible as presented in this sale.

Looking forward to seeing you sale day!

*Dakota 80E continues to see heavy use in our herd. He is a very aggressive breeder, has tre--mendous length, bone and walks on a very sound foot.*

*His first daughters calved this spring and certainly didn't disappoint. They are very feminine, broody and bring home heavy calves. He will most certainly pass these same desired traits on through his 18 sons offered in this sale.*

*Yield pays the weight on any carcass. Circuit breaker had a 19.2 square inch Rib Eye at a year of age which transmitted to 1.91 square inches for every hundred lbs of carcass weight. He sired a group of sons that are certainly following in his footsteps packing alot of carcass merit.*

*Circuit Breaker's daughters are feminine, broody and exhibit that easy doing ability and we look forward to calving his first set this spring of 2022.*

## Kehler Stauffer Water Safety Endowment Fund

Each and every year the Kehler Stauffer Water Safety Endowment Fund proudly supports the water safety curriculum taught in schools. There is a wide distribution of this instruction including many schools, colonies and communities. The feed back has been tremendously gratifying to hear and hopefully having a lasting impact on our youth.

Gifts to this fund are gratefully accepted from individuals, families, businesses, or corporate donors, and support the continued water safety education of youth throughout Southwestern Alberta.
